

## ONE MILLION MEN MAY GO BACK TO FIGHTING LINE

INDUSTRIAL DEPLETION MAY  
ENBUE IF RESERVISTS ARE  
ALLOWED TO GO.

Some idea of the magnitude of a general European war can be gained from the figures given in the census of 1910 and by the different consuls showing that there are more than three million five hundred thousand men in the United States more than 21 years of age born in Europe, says the New York Herald. To be sure, not all of these would be involved in the struggles, as many are too old for army service. There are thousands, however, who are actually members of the reserve corps of foreign armies and these would most certainly have to go.

In addition to those who are enlisted in foreign armies many more probably will return if there should be a call for volunteers. The fact that last month 14,000 reserves of the Austrian army reported to the consulate in this city points to many thousands throughout the country who will be called upon to bear arms in case of war. These reserves who reported to the Austrian consulate in this city comprise only those living in New York, New Jersey, Rhode Island and Connecticut.

In the last few years the center of immigration has shifted southward from northern Europe and at the present time the immigrants from the countries around the Mediterranean are mostly young men who will surely have to return if their nations take a part in the war. A larger proportion naturally would be drafted from such countries than from those where the majority of immigrants have been in the United States a longer time. The Servians would practically all be called upon to return, while the majority of the Germans are beyond the years of active service and many of them are United States citizens.

Should a call come to this country from the different nations it would be only a short time before the Atlantic ports from when men can leave for Europe would be filled with foreigners from the interior or from the west to join their armies. While ships from some of the lines may be drawn by their governments into the service of transporting these men, it is estimated that there will be accommodations enough offered in the regular channels to make such work unnecessary.

It is the consensus of the foremost men of the different nationalities in this city that should a general European struggle start more than 1,000,000 men would be taken back from the United States for service in foreign armies. That such an exodus would be felt throughout the country is nowhere doubted.

## PERSONAL

Comings and Goings of Local People and Others.

D. ASPLAND, of the T. & T., came over from Goldfield this morning. GEORGE KERNICK, of the Hasbrouck mine, returned from San Francisco this morning.

MISS CATHERINE HASKELL departed this morning for Boston, where she will enter the Boston Conservatory of Music.

A. D. McCABE, of the Wells Fargo force, and wife returned yesterday from Lake Tahoe, where they spent the past three weeks outing.

MRS. B. I. HOXIE and children left for Nevada City on today's train. Thence they go to Sacramento, where they make their future home.

C. R. CHAMBERLAIN and Bill Nywonger motored in yesterday from Round Mountain. They reported the roads badly washed and progress slow.

ROBERT L. PROUTY and wife and T. J. Dwyer and wife left yesterday for Bishop and the high mountains, where they go for two weeks fishing and hunting.

JAMES D. MOORE, candidate for mine inspector on the Democratic ticket, left this morning for Reno after a getting acquainted trip in the southern country.

E. WINFREY, Democratic nominee for state superintendent of public instruction, running against John Edwards Bray, who "stands on his record" for the same office, was a passenger this morning for Goldfield. Betts of two to one are freely offered on Winfrey without any takers.

## UNION MINES TO BUILD MILL SOON

A FIFTY-TON CONCENTRATING  
PLANT WILL HANDLE LEAD-  
SILVER ORE TONNAGE.

The Union Mines company, located in Eureka county, Nevada, thirty-five miles south of Palisade, will erect a fifty-ton concentrating mill in the near future, according to Manager L. R. Thatcher, who was in Salt Lake yesterday looking after the ore shipments of the company, says the Salt Lake Tribune. He said that the company had an excellent millsite, with plenty of water and timber. The property years ago produced something like \$100,000 worth of ore.

The present company bought the mine last April. There was about 25,000 tons of ore blocked out in the mine, which is being worked by crosscutting tunnels. This ore, which is of a lead-silver nature, the company has been shipping, but owing to the condition of the present metals market the management has decided to confine its work to developing more ore bodies.

The mill will be erected in the meantime and will consist of jaw crushers, rolls, jigs, tables and classifiers. The plant will handle the tonnage of the mine, which in the future will be shipped in the form of concentrates. The company expects thus to make a considerable saving in freight expenses.

The mine is being worked by two tunnels, one in 280 feet and one 160 feet, which cut the ore at about 100 feet depth. The vein is from fifteen to twenty feet in width and is producing a good grade of shipping ore.

Speaking of the other mining camps in Nevada, Manager Thatcher said that the old Bullion camp, ten miles north of the Union Mines properties, had been revived by leasers, who were steadily shipping about five cars of ore per week. The ore is of a lead-silver-copper character. The Done Mining and Reduction company is operating the Key lease and Dagg and Fordham are operating the Elk lease. Besides these, the Sweepstakes and Sylvania properties are also shipping.

Eureka county as a whole is looking good, said Manager Thatcher. The Buckhorn is very active and about 400 tons of ore per day is being milled in the Buckhorn Mines company's mill. The mill is making an excellent extraction with the cyanide process.

## FREE LANDS FOR FRATERNAL USE

(By Associated Press.)

WASHINGTON, August 13.—All regularly organized and incorporated fraternal organizations would be allowed to obtain tracts of government land for sanitarium purposes for the benefit of their members, under a bill introduced by Representative Raker, of California, now before the house upon recommendation of the public lands committee. It follows a movement for legislation of this kind that has been carried on by fraternal associations and societies for a number of years. Many bills previously have been introduced on the subject, but they were to grant lands to these organizations by name, while the pending measure is general in scope, permitting any and all such organizations to obtain tracts for sanitariums.

The main object of the fraternal organizations is to obtain, in each case, a sufficiently large tract of land upon which a modern sanitarium may be established in arid, semi-arid or mountainous states, in a salubrious section where the ill members of the organization may be treated and cured, particularly in cases of consumption.

The public lands committee has just reported to the house that there are large tracts of land in the public land states, which are practically useless for individual holdings. The bill permits the secretary of the interior to withdraw or reserve the land applied for, for not exceeding two years, to enable any fraternal organization to investigate and determine the condition of the climate, soil, water supply facilities and other questions, before obtaining patent.

Then the organization could get, not exceeding four sections of unoccupied non-mineral, arid, semi-arid or mountainous land by placing substantial improvements, the land to be used exclusively for sanitarium purposes, and if not so used to revert to the United States.

## MILLION MORE FOR THIS YEAR.

County Assessor Leonard has completed the county's assessment for the current year, with the exception of Winnemucca and Golconda. While no footings have been made, it is thought this year's total will exceed that of last year by fully \$1,000,000, notwithstanding the fact that the state tax commission has reduced the assessment of both the Southern Pacific and Western Pacific.

Last year the Southern Pacific was rated at \$6,229,795, according to the Silver State, as compared with \$6,157,841 for this year. Last year the Western Pacific was assessed at \$2,893,974, while this year its valuation is placed at \$2,530,888.—Lovelock Review.

## CONFEDERATE WAR CLAIMS MENACE U. S. TREASURY

NEW DANGER THREATENS TO  
ABSORB A SLICE OF PUBLIC  
FUNDS.

(Special to the Bonanza.)

WASHINGTON, August 13.—Thousands of war claims, mounting up in the millions, may make a heavy drain upon the treasury, if the amendment of which Oscar Underwood, Democratic house leader, is the author, is forced through. Mr. Underwood's amendment is the first instance in fifty years where the barrier of loyalty to the government, which has always been the basis of all war claims, is absolutely shattered.

So far as the Democratic leader's amendment is concerned, the flood gates are thrown open for the filing of hundreds of thousands of Confederate war claims. If the Democratic leader's policy is approved, it may mean the payment of millions of dollars to the south. And it looks as though it might be, since Democrats, south and north, followed Mr. Underwood in his break over the loyalty bars like sheep.

Republican Leader Mann fought valiantly against the establishment of this unusual precedent in the house, but he was swept away by the Democratic current.

The particular claim was that of Antonio Q. Lovell and heirs-at-law of Confederate General Quitman for federal occupation of lands owned by that general in the crop year of 1865. The United States court of claims rejected the claim because the owners of the land failed to establish their loyalty to the government. The standing committee on war claims likewise rejected it, but the Democratic leader put it through.

Concern has been expressed by those who see the possible drain on the treasury that this precedent may create, lest, immediately after the coming elections, thousands of other such claims may be considered and allowed, regardless of the loyalty or disloyalty of claimants during the war. Minority Leader Mann called attention to this danger, but was ignored by the Democratic majority.

## ZEB RAY SLATED BY MINE INSPECTOR FOR SLICE OF PIE

DEMOCRATIC BY PLAY THAT  
FAILS TO DECEIVE HONEST  
VOTERS.

Gossip has it that Mr. Ray, candidate for mining inspector, does not expect to get the nomination, but has a lead pipe clinch on getting a job if Mr. Ryan is nominated and elected.

In 1910 Mr. Ryan was elected on the Democratic ticket to the office of mining inspector, and has been posing ever since as a Democrat. He is now seeking the same office on the same ticket. It is alleged that Mr. Ryan and his agents made a deal with the Socialists to vote for him at the primaries. The edicts of the Democratic party are in direct contravention to the Socialist platform. Heretofore some have held that Senator had no dependency on the sun, and was not governed in its orbit by its influence. Perhaps Mr. Ryan has no dependence on the majority of Democrats, hence his dallying with the Socialists. The consideration is a matter of conjecture. The Socialists, on the other hand, have held to the doctrine that a Socialist could not consistently vote for any person other than a member of their party.

Their action now as reported not only repudiates that doctrine, but places them in a ridiculous position and unworthy of the support of their own members. "So you also outwardly indeed appear to men just; but inwardly you are full of hypocrisy and iniquity."

Up to the first of the month 175 Socialists were registered in Tonopah as Democrats, thus confirming the report of Ryan's deal. Whether the Democrats of Nevada will approve of Mr. Ryan remains to be seen.
